

RACCA
REFRIGERATION & AIR CONDITIONING CONTRACTORS ASSOCIATION

This workshop is professionally managed by the Construction Resources Group, Inc. (CRG) in cooperation with RACCA.

LOW GWP SAFETY TRAINING AND CERTIFICATION

FLAMMABLE AND MILDLY FLAMMABLE REFRIGERANTS

As the HVACR industry continues to move forward and innovate, the refrigerants that were once so commonplace are now being phased down. Replacing them are more energy efficient and environmentally friendlier refrigerants, known as Low GWP refrigerants. Many of these new refrigerants are classified by ASHRAE as A2L or slightly flammable.

With numerous changes to building codes and industry standards to accommodate the safe use of Low GWP refrigerants, those working in the HVACR industry will need information and training to keep pace with innovation.

This Safety Training Workshop (with study guide) and ESCO Certification Exam covers:

- Refrigerant safety
- Introduction to Low GWP refrigerants
- Refrigerant properties and characteristics
- The refrigeration cycle
- Working with refrigerant blends
- Proper installation and service guidelines
- Flammable refrigerant considerations
- Explanation of the associated codes and standards for A2L refrigerants

Industry Expert Instructor:

- **Bob Feathers, HVAC Specialties**

The Low GWP Safety Training and Certification Workshop is professionally managed by Construction Resources Group (CRG).

JANUARY 16, 2025

7:30am - 2:30pm

LOCATION

Trane Supply - Tampa

4720 E Adamo Dr.
Tampa, FL 33605

*Coffee, donuts and pastries provided by Trane
Snacks provided by CRG*

Lunch is on your own.
